David Pfeffer, MD
Director, PET Imaging
Dr. Pfeffer is a board certified diagnostic radiologist. He earned a medical degree from New York Medical College in Valhalla, completed an internship in internal medicine at University Hospital/UMDNJ and a residency in diagnostic radiology at North Shore University Hospital in Manhasset. He was fellowship-trained in body imaging at Mount Sinai Medical Center. He most recently served as an attending radiologist at Good Samaritan Hospital and its affiliates, where he provided full-time multimodality coverage, and has functioned as the Director of PET Imaging. His areas of expertise include body imaging with ultrasound, CT, MRI and PET scanning.

Contact Information: 516-632-4656

Nadja Rau, DO
Diagnostic Breast Imaging
Dr. Rau is a board certified fellowship-trained radiologist, who earned a medical degree from New York College of Osteopathic Medicine. She completed a residency in diagnostic radiology at St. Barnabas Hospital, Bronx, New York and a fellowship in breast and body imaging at North Shore University Hospital, Manhasset. Prior to joining Mount Sinai South Nassau, she was an Attending Physician in the Department of Radiology at Good Samaritan Women’s Imaging Center in West Islip, New York. Dr. Rau is on staff at Mount Sinai South Nassau and works at the Center for Women’s Imaging in Oceanside.

Contact Information: 516-255-8220

Matthew D. Ritkin, MD, FACR
Chair, Department of Radiology
Dr. Ritkin is a board certified diagnostic radiologist. He earned a medical degree from Albert Einstein College of Medicine, completed a residency in diagnostic radiology at Montefiore Hospital and Medical Center and was fellowship-trained in body imaging at The Johns Hopkins University School of Medicine. Dr. Ritkin is fellowship-trained in body imaging at the American College of Radiology, the American Institute of Ultrasound and the Society of Radiologists in Ultrasound and the Society of Oncology. He is also a Professor of Radiology at SUNY Stony Brook and New York College of Osteopathic Medicine. Dr. Ritkin has performed cutting-edge clinical research in the diagnosis and staging of prostate cancer, and was a pioneer in the development of image-guided prostate biopsies. He has been the recipient of National Cancer Institute grants regarding the use of MRI and ultrasound in prostate diseases.

Contact Information: 516-632-4656

Mindy Scheer, DO
Director, Diagnostic Breast Imaging
Dr. Scheer is a board certified diagnostic radiologist specializing in breast imaging. She earned a medical degree from the New York College of Osteopathic Medicine in Old Westbury and completed her residency at Winthrop University Hospital in Mineola. Dr. Scheer completed her breast imaging fellowship at the prestigious Carol Baldwin Breast Cancer Center at Stony Brook University, where she also was Assistant Professor of Radiology. Dr. Scheer is on staff at Mount Sinai South Nassau’s Center for Women’s Imaging in Oceanside, New York.

Contact Information: 5156-255-8220

Eric Settleman, MD, FACS
Program Director of Surgery
Dr. Settleman is board certified in general surgery and fellowship-trained in vascular surgery. Prior to joining Mount Sinai South Nassau, he completed a general surgery residency at Nassau University Medical Center, East Meadow and was fellowship-trained in surgical oncology at Virginia Commonwealth University in Richmond. Virginia. Dr. Settleman’s areas of expertise include minimally invasive breast surgery, including skin sparing mastectomy, treatment of melanoma and other skin cancers, and minimally invasive colorectal and gynecologic surgery, including laparoscopic and open hysterectomy. Dr. Settleman performs surgery with the assistance of his surgical assistants.

Contact Information: 5156-632-3350

Ari M. Steiner, MD
Director, Abdominal Imaging and PET-CT
Dr. Steiner is Chief of the Section of Abdominal Imaging and is board certified in radiology. He earned a medical degree from Albert Einstein College of Medicine, completed a residency in diagnostic radiology at Montefiore Medical Center and was fellowship-trained in body imaging at North Shore University Hospital. Dr. Steiner has extensive experience in pelvic floor imaging. He holds an academic appointment of Clinical Professor at the Hofstra North Shore-LIJ School of Medicine.

Contact Information: 5156-632-4456

Leester Wu, MD
Associate Director, Radiation Oncology
Dr. Wu brings a diverse background in community practice, research, and academic training to Mount Sinai South Nassau. Previously, Dr. Wu was the Chairman of Radiation Oncology at North Shore University Hospital. He has a diverse background in general surgery and minimally invasive breast surgery, including skin sparing mastectomy, treatment of melanoma and other skin cancers, and minimally invasive colorectal and gynecologic surgery, including laparoscopic and open hysterectomy. Dr. Steiner performs surgery with the assistance of his surgical assistants.

Contact Information: 5156-255-8220

Susan Wu, MD
Chair, Department of Clinical Laboratories and Pathology
Dr. Wu joined Mount Sinai South Nassau in 2002 as a Certified Clinical Laboratory Scientist. She is board certified in laboratory medicine and pathology. Dr. Wu has an accomplished pathology who brings specialty training in oncologic diagnostic pathology from such institutions as the Cleveland Clinic Foundation, Memorial Sloan-Kettering Cancer Center, and Henry Ford Hospital. Dr. Wu has particular interest in new diagnostic techniques for gynecology, lung, breast, gastrointestinal and genitourinary tumors, including molecular profiling and cancer therapeutic studies.

Contact Information: 5156-632-2330

Sydney Yoon, MD
Director, Interventional Radiology
Dr. Yoon is fellowship-trained in interventional radiology at UCLA School of Medicine and neuroradiology at Columbia University. After earning a medical degree from the University of Chicago, he completed residencies in radiology at UCLA School of Medicine and neuroradiology at Columbia University, and in medicine at Johns Hopkins School of Medicine. He is board certified in diagnostic radiology, neuroradiology, vascular and Interventional radiology and medicine. Dr. Yoon also performs new cancer intervention radiology procedures – Y 90 Radiolabelled and microwave ablation.

David Pfeffer, MD

Leading Cancer-Fighting Technologies Delivered With Award-Winning Care

Why Choose Mount Sinai South Nassau?
Conveniently located in Oceanside, New York, Mount Sinai South Nassau’s Gertrude & Louis Feil Cancer Center is one of the premier cancer care centers in the New York Metropolitan area. Here patients will find the most advanced treatments and technology with a health care team who can coordinate the best treatment options. With Mount Sinai South Nassau’s partnership with the Mount Sinai Health System, access to cutting edge clinical trials and leading physicians is available through the The Tisch Cancer Institute at the Icahn School of Medicine at Mount Sinai, one of only 70 National Cancer Institute-designated centers in the country.

Award-Winning Care
Mount Sinai South Nassau is an accredited community cancer program by the American College of Surgeons Commission on Cancer.

The Most Advanced Technology for Diagnosis and Treatment
• The da Vinci® Surgical System treats many cancers in one to five short sessions. Other modalities include Image Guided Radiation Therapy (IGRT), Intensity Modulated Radiation Therapy (IMRT) and Brachytherapy.
• The da Vinci® Surgical System for robot-assisted surgeries; and
• The Gamma Knife® Perfexion for treating brain tumors without surgery
• PET/CT scanners to detect a broad range of cancer types in one, simple examination

Support Care Services
• Patient navigation and survivorship includes a certified patient nurse navigator to assist patients in the care process, and survivor care planning for patients diagnosed with breast cancers
• Support groups for patients and families
• Health events and screenings
• The Cancer Registry collects data on all cancer cases at Mount Sinai South Nassau and provides patients and physicians with research and education information.

Geraldine N. Abbey-Mensah, MD
Interventional and Diagnostic Radiology and Breast Imaging

Dr. Abbey-Mensah is board certified in diagnostic radiology, and specializes in interventional radiology as well as breast imaging. She earned a medical degree from Albert Einstein College of Medicine in the Bronx, New York. She completed a fellowship in interventional radiology at the New York Presbyterian/Weill Cornell Medical Center in New York City. Dr. Abbey-Mensah is a member of the New York State Radiological Society and has been a pioneer in the field of breast imaging including image-guided biopsies.

Contact information: 516-632-4656

Shahriyur Andaz, MD, FACS
Director, Thoracic Surgery; Director, Clinical Research

A specialist in thoracic surgery and thoracic oncology, Dr. Andaz is especially interested in the early diagnosis of lung cancer through clinical assessment and/or CT scan. He completed his surgical fellowship training at the Royal College of Surgeons in Edinburgh and Glasgow, United Kingdom. His thoracic surgery residency at Maimonides Medical Center, and advanced training at UCLA Medical Center with thoracic oncology. Dr. Andaz received extensive training in video-assisted thoracoscopic surgery, robotic and advanced surgical techniques for the management of thoracic malignancies.

Contact information: 516-255-5010

Ann L. Buhl, MD
Director, Gynecologic Oncology

Dr. Buhl obtained her medical degree from New York Medical College and completed residency training in OB/GYN at the New York-Presbyterian Hospital/Weill Cornell Medical Center. Dr. Buhl, who is board certified in OB/GYN and gynecologic oncology, diagnosed and treats cancers of the female reproductive system. She is widely recognized as one of the area’s finest women’s specialists, and a skilled surgeon who utilizes minimally invasive approaches to diagnose and treat early-stage, advanced, recurrent or unusual gynecologic cancers and recurrent malignancies.

Contact information: 516-632-3350

Michael H. Brisman, MD
Chief, Surgical Neuro-Oncology; Co-Medical Director, Long Island Gamma Knife at Mount Sinai South Nassau

Dr. Brisman specializes in the management of brain tumors and trigeminal neuralgia. He is recognized national expert in the treatment of facial pain/trigeminal neuralgia as well as metastatic brain cancer. Experience in Gamma Knife radiosurgery, he also performs linear accelerator-based stereotactic radiosurgery. Dr. Brisman is a graduate of Harvard University, earned his medical degree at Columbia University and completed his neurosurgical residency at Mount Sinai Medical Center in New York. He is board certified in neurosurgery.

Contact information: 516-255-9031

Rajiv V. Datta, MD, FACS, FRCS, FICS
Chair, Department of Surgery; Division of Neurosurgery and Head and Neck Oncology; Medical Director, Gertrude & Louis Feil Cancer Center

Dr. Datta established Mount Sinai South Nassau's Surgical Oncology Program in 2001. He specializes in gastrointestinal, colorectal, pancreatic and hepatobiliary cancers, endocrine and soft tissue malignancies, and melanoma and head and neck cancers using minimally invasive approaches. Dr. Datta trained at Grant Medical College and Tata Memorial Cancer Center in India with advanced training in plastic surgery and oncological surgery in the United Kingdom, prior to a research fellowship at Memorial Sloan-Kettering Cancer Center. He completed a dual fellowship in surgical oncology and head and neck surgery at Roswell Park Cancer Institute in Buffalo, New York and then was honored as the first recipient of the Charles Hemming Memorial Award at Mount Sinai Hospital. Dr. Datta continues to be listed in Castle Connolly Medical Ltd.'s, Top Doctors. New York Metro Area guide. He is also a member of the Editorial Board of International Journal of Surgery, published by the International College of Surgeons, USA.

Contact information: 516-632-3350

Diane M. Garrigan, DO
Diagnostic Breast Imaging

Dr. Garrigan is a board certified Diagnostic Radiologist specializing in breast imaging and a pioneer in the area of breast cancer screening. She received her medical degree from the Philadelphia College of Osteopathic Medicine in Philadelphia and completed her training in Diagnostic Radiology at Lehigh Valley Hospital in Allentown and a Breast Imaging/ Intervention residency at Beth Israel Medical Center and Philips Ambulatory Care in New York. Dr. Garrigan also graduated from the University of California San Francisco with a Master of Public Health degree.

Contact information: 516-255-8220

Vanessa R. Gibson, MD
Director, Thoracic Oncology

Dr. Gibson is board certified in cardiothoracic surgery. She earned her medical degree at the University of Louisville School of Medicine. She trained in general surgery at the University of Kansas in Kansas City and completed her cardiothoracic residency at the University of Kentucky. Dr. Gibson has also completed a fellowship in Thoracic Surgical Oncology at Brigham and Women's Hospital at Harvard University. Her clinical interests include minimally invasive surgery, including endoscopic and robotic approaches in the diagnosis and treatment of thoracic malignancies. She also offers minimally invasive procedures for the correction of chest wall deformities as well as endoscopic esophageal surgeries.

Contact information: 516-255-5010

Constantinos G. Hadjipanayis, MD, PhD
Professor of Neurosurgery and Oncological Sciences, Icahn School of Medicine at Mount Sinai, Site Chair, Department of Neurosurgery, Mount Sinai Union Square; Director, Neurosurgical Oncology, Mount Sinai Health System; Director, Brain Tumor Nanotechnology Laboratory, Tisch Cancer Institute

Board certified in neurosurgery, Dr. Hadjipanayis is a Professor of Neurosurgery and Oncological Sciences, and Site Chair of the Department of Neurosurgery at Mount Sinai Union Square in New York City. He is also Director of Neurosurgical Oncology for the Mount Sinai Health System and Director of the Brain Tumor Nanotechnology Laboratory in the Tisch Cancer Institute. He is recognized as a neuro-oncology pioneer for his role in providing minimally invasive approaches to the brain, and as a leader in the development of new treatments for brain tumors.

Contact information: 212-844-6922

Michael P. Herman, MD
Director, Urology

Dr. Herman, who is board certified in urology, graduated magna cum laude from Harvard University with a bachelor’s degree in biochemical sciences and earned a medical degree from the University of Texas Southwestern Medical Center. He completed an internship and residencies in general surgery and urology, both at New York-Presbyterian Hospital. As an assistant professor of urology, Dr. Herman’s clinical interests include urologic oncology, prostate cancer, and treatments of genitourinary malignancies.

Contact information: 516-632-3350

Christine Hodyl, DO, FACS
Director, Breast Services

The Director of Mount Sinai South Nassau’s highly respected Breast Services Program, Dr. Hodyl completed her post-graduate training at Memorial Sloan-Kettering Cancer Center and has conducted research at Memorial Sloan-Kettering. She has been a pioneer in the development of teaching programs in surgery and developed the surgical residency program at Lutheran Medical Center in Brooklyn. A breast surgeon, she specializes in oncological surgical techniques, combining cancer removal surgery with plastic surgery techniques to produce superior aesthetic results that can preserve dignity and pride.

Contact information: 516-632-3350

Richard M. Lee, MD
Chief, Division of Hematology and Medical Oncology

Dr. Lee is board certified in hematology and medical oncology. Upon earning a medical degree from the University of Miami School of Medicine, Miami, Florida, he went on to complete an internal medicine residency at Loyola University Medical Center and Affiliate Hospitals and was fellowship-trained in hematology and medical oncology at Boston University Medical Center and Affiliate Hospitals, where he served as Chief Resident. He is a member of the American Society of Clinical Oncology, American Society of Hematology and the American Medical Association. Prior to joining Mount Sinai South Nassau, he was a member of South Shore Hematology Oncology Associates. Dr. Lee is affiliated with Mount Sinai South Nassau Oncology Practice, PC in Rockville Centre, New York and the Clinical Research Alliance in Lake Success, New York.

Contact information: 516-536-1445

David Li, MD, PhD
Interventional Radiology

Dr. Li is board certified Interventional Radiologist who graduated with a BS from Columbia University and then attended the Albert Einstein College of Medicine earning his medical degree and a PhD in pharmacology and biophysics. He completed his internship at North Shore University Hospital. His diagnostic radiology residency was at the Beth Israel Deaconess Medical Center in Boston, during a fellowship in interventional radiology at New York Presbyterian/Weill Cornell Medical Center before joining Mount Sinai South Nassau in 2018.

Contact information: 516-632-4656

Robert J. Licul, DDS
Chief, Division of Oral and Maxillofacial Surgery

Dr. Licul is Chief of Oral and Maxillofacial Surgery at Mount Sinai South Nassau. He trained in oral surgery at the University of Pennsylvania and New York University College of Dentistry and completed his fellowship in Oral and Maxillofacial Reconstruction at Saint Francis Hospital of Hartford, Connecticut. Dr. Licul practices the full scope of Oral and Maxillofacial Surgery and is a Diplomate of the American Board of Oral and Maxillofacial Surgery. He has particular interest in dental implant surgery, bone graft reconstruction of the jaws, orthognathic jaw surgery, pathology involving sarcoïd and aneurysms and mandibular joint surgery.

Contact information: 516-333-5900

Dean P. Pappas, MD, FACS, FASCRS
Chief, Colon and Rectal Surgery; Senior VP of Mount Sinai South Nassau

Colorectal cancer screening, colorectal cancer, benign colorectal polyps, and rectal floor dysfunction is the clinical focus area for Dr. Pappas, named Chief of Colon and Rectal Surgery in April 2001. Dr Pappas completed medical school and residency training at Stony Brook School of Medicine followed by fellowship-training in colon and rectal surgery at the Mayo Clinic in Rochester, Minnesota. In 2007, Dr. Pappas is a Fellow of both the American College of Surgeons and the American Society of Colon and Rectal Surgeons. Dr. Pappas has experience in advanced laparoscopic colorectal surgery, involving minimally invasive surgical techniques applied for faster recovery, reduced post-operative discomfort, and improved outcomes. Other areas of interest include management of constipation and incontinence.
