

The Center for Comprehensive Radiation Team

Results-Oriented Expertise Meets Complete Cancer Care

When you refer your cancer patients to Mount Sinai South Nassau, you are leveraging the most current in medical knowledge as well as a team with the highest standards of professional integrity, all committed to providing your patients with the best care available.

The staff at Mount Sinai South Nassau's Center for Comprehensive Radiation Services includes dedicated, caring professionals with years of experience in the treatment of cancer. Our team consists of board-certified radiation oncologists, medical physicists, certified dosimetrists, radiation therapists, and clinical radiation oncology nurses who ensure patient safety through participation in a regular Quality Assurance Program.

What distinguishes excellence in our medical practice is an unwavering commitment, an unquestionable level of integrity, and a dedication to the best possible patient outcomes.

Leester Wu, MD

Associate Director, Radiation Oncology

Dr. Wu brings a diverse background in community practice, research, and academic training to South Nassau's Radiation Oncology Department. He was the recipient of numerous honors throughout his undergraduate work at Harvard University and while he was in medical school at the University of Pennsylvania. He completed his residency at Columbia University Medical Center in New York, training in state-of-the-art external beam radiation therapy and Gamma Knife stereotactic radiosurgery. Dr. Wu is board certified in radiation oncology. He is fluent in Taiwanese and conversant in Spanish.

Constantinos G. Hadjipanayis, MD, PhD

Director, Neurosurgical Oncology at Mount Sinai Health System
Professor of Neurosurgery and Oncological Sciences

Dr. Hadjipanayis is a board-certified neurosurgeon and an NIH-funded scientist, recognized as a pioneer in the therapy and surgical management of malignant brain tumors, neuro-endoscopy, and colloid cysts. Additionally, he performs microsurgery and Gamma Knife radiosurgery for brain and spinal cord tumors, and fluorescence-guided surgery for malignant gliomas. He also sees patients at Mount Sinai Union Square in Manhattan.

Contact information: 212-844-6922

Oren Factor, MD

Radiation Oncology

Dr. Factor has advanced training in all aspects of radiation oncology including external beam radiation therapy, intensity modulated radiation therapy, and stereotactic radiosurgery. He has a breadth of clinical experience in all sites of cancer. He has numerous publications and has presented at national meetings in radiation oncology. He received various accolades and awards during his undergraduate time at Cornell University and he graduated with Alpha Omega Alpha distinction from Stony Brook University School of Medicine. He completed a Radiation Oncology Residency, as Chief Resident, at The Mount Sinai Hospital in New York, NY.
