Whether you've had a wound for a short period of time or wounds that recur over time, open wounds can interfere with your daily activities. The wound care experts at Mount Sinai South Nassau understand this and are dedicated to caring for you as a whole person, keeping your goals in mind.

Our patients enjoy the success of our team approach to care, all during outpatient visits. Results include decreased pain, greater flexibility and movement, and higher quality of life. We have a cure rate consistently above the national average. Mount Sinai South Nassau Wound Care has earned Disease-Specific Certification from The Joint Commission, a national health care quality organization, which attests to our strong commitment to excellence for everyone we serve.

Our experts include Wound Care Surgeons, Podiatrists and Nurses who use the latest tools and techniques available in wound care and repair. Our team works closely with each patient and family, so you have the information you need to take a leading role in your own recovery.

Outpatient Wound Care Services Include:

- Wound consultation and evaluation
- Treatment of non-healing wounds including, but not limited to, diabetic wounds, vascular wounds, traumatic wounds, surgical wounds, post radiated wounds, burns, and pressure ulcers
- Ongoing assessments of the patient and their wounds
