

David Pfeffer, MD

Director, PET Imaging

Dr. Pfeffer is a board certified diagnostic radiologist. He earned a medical degree from New York Medical College in Valhalla, completed an internship in internal medicine at University Hospital/UMDNJ and a residency in diagnostic radiology at North Shore University Hospital in Manhasset. He was fellowship-trained in body imaging at Mount Sinai Medical Center. He most recently served as an attending radiologist at Good Samaritan Hospital and its affiliates, where he provided full-time multimodality coverage, and has functioned as the Director of PET Imaging. His areas of expertise include body imaging with ultrasound, CT, MRI and PET scanning.

Contact information: 516-632-4656

Nadia Rao, DO

Diagnostic Breast Imaging

Dr. Rao is a board certified, fellowship-trained radiologist, who earned a medical degree at New York College of Osteopathic Medicine. She completed a residency in diagnostic radiology at St. Barnabas Hospital, Bronx, New York and a fellowship in breast and body imaging at North Shore University Hospital, Manhasset. Prior to joining Mount Sinai South Nassau, she was an Attending Physician in the Department of Radiology at

Good Samaritan Women's Imaging Center in West Islip, New York. Dr. Rao is on staff at Mount Sinai South Nassau's Center for Women's Imaging in Oceanside.

Contact information: 516-255-8220

Matthew D. Rifkin, MD, FACR

Chair, Department of Radiology

Dr. Rifkin is board certified in diagnostic radiology. He earned a medical degree from Albert Einstein College of Medicine, completed a residency in diagnostic radiology at Montefiore Hospital and Medical Center and was fellowship-trained in body imaging at The Johns Hopkins University School of Medicine. He is a Fellow of the American College of Radiology, the American Institute of Ultrasound in Medicine, the Society of Radiologists in

Ultrasound and the Society of Uroradiology. He is also a Professor of Radiology at SUNY Stony Brook and New York College of Osteopathic Medicine. Dr. Rifkin has performed cutting-edge clinical research in the diagnosis and staging of prostate cancer, and was a pioneer in the development of image-guided prostate biopsies. He has been the recipient of National Cancer Institute grants regarding the use of MRI and Ultrasound in prostatic diseases.

Contact information: 516-632-4656

Mindy Scheer, DO

Director, Diagnostic Breast Imaging

Dr. Scheer is a board certified diagnostic radiologist specializing in breast imaging. She earned a medical degree from the New York College of Osteopathic Medicine in Old Westbury and completed her residency at Winthrop-University Hospital in Mineola. Dr. Scheer completed her breast imaging fellowship at the prestigious Carol Baldwin Breast Cancer Center at Stony Brook University, where she is also a Clinical

Assistant Professor of Radiology. Dr. Scheer is on staff at Mount Sinai South Nassau's Center for Women's Imaging in Oceanside, New York.

Contact information: 516-255-8220

Eric Seitelman, MD, FACS

Program Director of Surgery

Dr. Seitelman is board certified in general surgery and fellowship-trained in surgical oncology. Upon earning his medical degree from Sackler School of Medicine, Tel Aviv, Israel, Dr. Seitelman completed a general surgery residency at Nassau University Medical Center, East Meadow and was fellowship-trained in surgical oncology at Virginia Commonwealth University in Richmond, Virginia. Dr. Seitelman's areas of expertise include minimally invasive breast surgery, including skin-sparing

mastectomy, treatment of melanoma and other skin cancers; and minimally invasive colorectal and upper GI surgery, including stomach and esophagus. Dr. Seitelman partners with plastic surgeons to offer optimal cosmetic and functional outcomes.

Contact information: 516-632-3350

Ari M. Steiner, MD

Director, Abdominal Imaging and PET-CT

Dr. Steiner is Chief of the Section of Abdominal Imaging and is board certified in radiology. He earned a medical degree from Albert Einstein College of Medicine, completed a residency in diagnostic radiology at Montefiore Medical Center and was fellowship-trained in body imaging at North Shore University Hospital. Dr. Steiner has extensive experience in pelvic floor imaging. He holds an academic appointment of Clinical Professor at the Hofstra North Shore-LIJ School of Medicine.

Contact information: 516-632-4256

Leester Wu, MD

Associate Director, Radiation Oncology

Dr. Wu brings a diverse background in community practice, research, and academic training to Mount Sinai South Nassau's Radiation Oncology Department. He earned his medical degree from the University of Pennsylvania and completed his residency at Columbia University Medical Center in New York, training in state-of-the-art external beam radiation therapy and Gamma Knife stereotactic radiosurgery. He also has extensive experience in stereotactic body

radiation therapy. Dr. Wu is Mount Sinai South Nassau's Cancer Liaison Physician to the American College of Surgeons (ACS) Commission on Cancer (CoC).

Contact information: 516-632-3330

Susan Wu, MD

Chair, Department of Clinical Laboratories and Pathology

Dr. Wu joined Mount Sinai South Nassau in 2002 as a Certified Pathologist and Cytopathologist, and was named Chair of the Department in 2009. She is an accomplished pathologist who brings specialty training in oncologic diagnostic pathology from such institutions as the Cleveland Clinic Foundation, Memorial Sloan Kettering Cancer Center, and Henry Ford Hospital. Dr. Wu has particular interest in new diagnostic techniques for gynecology, lung, breast, gastroenterology and genitourinary tumors, including molecular profiling and cancer therapeutic studies.

Contact information: 516-632-3932

Sydney Yoon, MD

Director, Interventional Radiology

Dr. Yoon is fellowship-trained in interventional radiology at UCLA School of Medicine and neuroradiology at Columbia University. After earning a medical degree from the University of Chicago, he completed residencies in radiology at UCLA School of Medicine and neuroradiology at Columbia University, and in medicine at Johns Hopkins School of Medicine. He is board certified in diagnostic radiology, neuroradiology, vascular and interventional radiology and

medicine. Dr. Yoon also performs new cancer interventional radiology procedures – Y-90 Radioembolization and microwave ablation.

Leading Cancer-Fighting Technologies Delivered With Award-Winning Care

Novalis Tx™ Radiosurgery

da Vinci® Robotic Surgical System

Hologic Selenia® Dimensions® 3D Mammography System

Elekta Gamma Knife® Perfexion™

Why Choose Mount Sinai South Nassau?

Conveniently located in Oceanside, New York, Mount Sinai South Nassau's Gertrude & Louis Feil Cancer Center is one of the premier cancer care centers in the New York Metropolitan area. Here patients will find the most advanced treatments and technology with a health care team who can coordinate the best treatment options. With Mount Sinai South Nassau's partnership with the Mount Sinai Health System, access to cutting edge clinical trials and leading physicians is available through the Tisch Cancer Institute at the Icahn School of Medicine at Mount Sinai, one of only 70 National Cancer Institute-designated centers in the country.

Award-Winning Care

Mount Sinai South Nassau is an accredited community cancer program by the American College of Surgeons Commission on Cancer.

The Most Advanced Technology for Diagnosis and Treatment

- The Novalis Tx® Radiosurgery System treats many cancers in one to five short sessions. Other modalities include Image Guided Radiation Therapy (IGRT), Intensity Modulated Radiation Therapy (IMRT) and Brachytherapy.
- The da Vinci® Surgical System for robot-assisted surgeries; and Gamma Knife® Perfexion for treating brain tumors without surgery
- Digital mammography with 3D tomosynthesis to improve breast cancer detection
- PET/CT scanners to detect a broad range of cancer types in one, simple examination

Support Care Services

- Patient navigation and survivorship includes a certified patient nurse navigator to assist patients in the care process, and survivor care planning for patients diagnosed with breast cancers
- Support groups for patients and families
- Health events and screenings
- The Cancer Registry collects data on all cancer cases at Mount Sinai South Nassau and provides patients and physicians with research and education

Geraldine N. Abbey-Mensah, MD

Interventional and Diagnostic Radiology and Breast Imaging

Dr. Abbey-Mensah is board certified in diagnostic radiology, and specializes in interventional radiology as well as breast imaging. She earned a medical degree from the Alpert Medical School of Brown University, Providence, Rhode Island, and completed a diagnostic radiology residency at the State University of New York Downstate Medical Center, where she was also Chief Resident. She then completed a fellowship in interventional radiology at

New York-Presbyterian Weill Cornell Medical Center/Memorial Sloan Kettering Cancer Center.

Contact information: 516-632-4656

Shahriour Andaz, MD, FACS

Director, Thoracic Surgery; Director, Clinical Research

A specialist in thoracic surgery and thoracic oncology, Dr. Andaz is especially interested in the early diagnosis of lung cancer through clinical assessment and via CT scan. He completed his surgical fellowship training at the Royal College of Surgeons in Edinburgh and Glasgow, United Kingdom, his thoracic surgery residency at Maimonides Medical Center, and advanced fellowship training at UCLA Medical Center with emphasis in thoracic oncology. At UCLA, Dr. Andaz received

extensive training in video-assisted thorascoscopy lobectomies, complicated chest wall resections, advanced surgery of the trachea and esophagus, lung volume reduction surgery and pleurectomy for mesothelioma. He specializes in Robotic Assisted Thoracic Surgery of the lung.

Contact information: 516-255-5010

Ann L. Buhl, MD

Director, Gynecologic Oncology

Dr. Buhl obtained her medical degree from New York Medical College and completed residency training in OB/GYN at the New York Hospital-Cornell Medical Center. Dr. Buhl, who is board certified in OB/GYN and gynecologic oncology, diagnoses and treats cancers of the female reproductive system. She is widely recognized as one of the area's finest women's specialists, and a skilled surgeon who utilizes minimally invasive approaches to diagnose and treat

early-stage, advanced, or recurrent gynecologic cancers and non-malignant gynecologic conditions. Dr. Buhl specializes in robotic-assisted laparoscopic surgery for benign and malignant gynecologic conditions, and is one of the most prolific da Vinci® gynecologic oncology surgeons on Long Island.

Contact information: 516-632-3350

Michael H. Brisman, MD

Chief, Surgical Neuro-Oncology; Co-Medical Director, Long Island Gamma Knife at Mount Sinai South Nassau

Dr. Brisman specializes in the management of brain tumors and trigeminal neuralgia and is a recognized national expert in the treatment of face pain/trigeminal neuralgia as well as metastatic brain cancer. Experienced in Gamma Knife radiosurgery, he also performs linear accelerator-based stereotactic radiotherapy. Dr. Brisman is a graduate of Harvard University, earned his medical degree at Columbia University and a neurosurgical residency at Mount Sinai Medical Center in

New York. He is board certified in neurosurgery.

Contact information: 516-255-9031

Rajiv V. Datta, MD, FACS, FRCS, FICS

Chair, Department of Surgery; Chief, Division of Surgical Oncology and Head and Neck Oncology; Medical Director, Gertrude & Louis Feil Cancer Center

Dr. Datta established Mount Sinai South Nassau's Surgical Oncology Program in 2001. He specializes in gastrointestinal, colorectal, pancreatic and hepatobiliary cancers, endocrine and soft tissue malignancies, and melanoma and head and neck cancers using minimally-invasive approaches. Dr. Datta trained at Grant Medical College and Tata Memorial Cancer Center in India with advanced training in plastic surgery and surgical oncology

in the United Kingdom, prior to a research fellowship at Memorial Sloan-Kettering Cancer Center. He completed a dual fellowship in surgical oncology and head and neck surgery at Roswell Park Cancer Institute in Buffalo, New York and then served on the faculty of Maimonides Medical Center and Coney Island Hospital. Dr. Datta continues to be listed in Castle Connolly Medical Ltd.'s, Top Doctors: New York Metro Area guide. He is also a member of the Editorial Board of *International Surgery*, published by the International College of Surgeons, USA.

Contact information: 516-632-3350

Diane M. Garrigan, DO

Diagnostic Breast Imaging

Dr. Garrigan is a board certified Diagnostic Radiologist specializing in breast imaging and retains a license in both Pennsylvania and New York. She earned a medical degree from the Philadelphia College of Osteopathic Medicine and completed her residency in Diagnostic Radiology at Lehigh Valley Hospital in Allentown and a Breast Imaging/Intervention residency at Beth Israel Medical Center, Philips Ambulatory Care in New York. Dr. Garrigan also

graduated cum laude with a BA in biochemistry from Mount Holyoke College in Massachusetts. Dr. Garrigan is on staff at Mount Sinai South Nassau's Center for Women's Imaging in Oceanside, New York.

Contact information: 516-255-8220

Vanessa R. Gibson, MD

Director, Thoracic Oncology

Dr. Gibson is board certified in cardiothoracic surgery. She earned her medical degree at the University of Louisville School of Medicine. She trained in general surgery at the University of Missouri in Kansas City and completed her cardiothoracic residency at the University of Kentucky. Dr. Gibson also completed a fellowship in Thoracic Surgical Oncology at Brigham and Women's Hospital at Harvard University. Her clinical interests include minimally-

invasive surgery, including endoscopic and robotic approaches in the diagnosis and treatment of thoracic malignancies. She also offers minimally-invasive procedures for the correction of chest wall deformities as well as anti-reflux esophageal surgeries.

Contact information: 516-255-5010

Constantinos G. Hadjipanayis, MD, PhD

Professor of Neurosurgery and Oncological Sciences, Icahn School of Medicine at Mount Sinai, Site Chair, Department of Neurosurgery, Mount Sinai Union Square; Director, Neurosurgical Oncology, Mount Sinai Health System; Director, Brain Tumor Nanotechnology Laboratory, Tisch Cancer Institute

Board certified in neurosurgery, Dr. Hadjipanayis is a Professor of Neurosurgery and Oncological Sciences, and Site Chair of the Department of Neurosurgery at Mount Sinai Union Square in New York City, New York. He is also Director of Neurosurgical Oncology for the Mount Sinai Health System and Director of the Brain Tumor Nanotechnology Laboratory in the Tisch Cancer Institute. He is recognized as a neuro-oncology pioneer for driving advancements in the therapy and surgical management

of brain tumors and is an internationally recognized expert in minimally invasive, neuro-endoscopic procedures to treat disorders in the brain. Dr. Hadjipanayis' expertise include robotic-assisted neurosurgery, Gamma Knife radiosurgery, and laser interstitial thermal ablation therapy. He received his medical degree from Jefferson Medical College in Philadelphia and completed his internship and residency at the University of Pittsburgh School of Medicine while simultaneously obtaining his PhD in the Department of Molecular Genetics and Biochemistry. He has advanced training from the University of California San Francisco.

Contact information: 212-844-6922

Michael P. Herman, MD

Director, Urology

Dr. Herman, who is board certified in urology, graduated magna cum laude from Harvard University with a bachelor's degree in biochemical sciences and earned a medical degree from the University of Texas Southwestern Medical Center. He completed an internship and residencies in general surgery and urology, both at New York-Presbyterian Hospital. As a physician who is trained as a da Vinci robotic surgeon, Dr. Herman's clinical interests include using minimally invasive procedures to

preserve function and improve recovery. Prior to joining Mount Sinai South Nassau, Dr. Herman was Assistant Professor in the Department of Urology at Weill Cornell Medical College, where he continues to serve as an Assistant Attending Physician at New York-Presbyterian Hospital.

Contact information: 516-632-3350

Christine Hodyl, DO, FACS

Director, Breast Services

The Director of Mount Sinai South Nassau's highly respected Breast Services Program, Dr. Hodyl completed her post-graduate training at Maimonides Medical Center and Lutheran Medical Center and has conducted research at Memorial Sloan-Kettering Cancer Center. She has been a pioneer in the development of teaching programs in surgery and developed the surgical residency program at Lutheran Medical Center in Brooklyn. As a breast surgeon, she specializes in oncoplastic

surgical techniques, combining cancer removal surgery with plastic surgery techniques to produce superior aesthetic results that can preserve dignity and pride.

Contact information: 516-632-3350

Richard M. Lee, MD

Chief, Division of Hematology and Medical Oncology

Dr. Lee is board certified in hematology and medical oncology. Upon earning a medical degree from the University of Miami School of Medicine, Miami, Florida, he went on to complete an internal medicine residency at Loyola University Medical Center and Affiliate Hospitals and was fellowship-trained in hematology and medical oncology at Boston University Medical Center and Affiliate Hospitals, Boston, Massachusetts. He is a member of the American

Society of Clinical Oncology, American Society of Hematology and the American Medical Association. Prior to joining Mount Sinai South Nassau, he was a member of South Shore Hematology-Oncology Associates, PC. He is affiliated with Mount Sinai South Nassau Oncology Practice, PC in Rockville Centre, New York and the Clinical Research Alliance in Lake Success, New York.

Contact information: 516-536-1455

David Li, MD, PhD

Interventional Radiology

Dr. Li is a board certified Interventional Radiologist who graduated with a BS from Columbia University and then attended the Albert Einstein College of Medicine receiving his medical degree and a PhD in physiology and biophysics. He completed his internship at North Shore University Hospital, his diagnostic radiology residency at the Beth Israel Deaconess Medical Center of Harvard University and a fellowship in interventional radiology at New York

Presbyterian/Weill Cornell Medical Center/Memorial Sloan Kettering Cancer Center. After completing his fellowship in 2013, he remained on staff as an interventional radiologist at the New York Presbyterian/Weill Cornell Medical Center before joining Mount Sinai South Nassau in 2018.

Contact information: 516-632-4656

Robert J. Licul, DDS

Chief, Division of Oral and Maxillofacial Surgery

Dr. Licul is Chief of Oral & Maxillofacial Surgery at Mount Sinai South Nassau. He completed his fellowship in Oral and Maxillofacial Reconstruction at Saint Francis Hospital, Hartford, Connecticut. Dr. Licul practices the full scope of Oral and Maxillofacial Surgery and is a Diplomate of the American Board of Oral and Maxillofacial Surgery. He has particular interest in dental implant surgery, bone graft reconstruction of the jaws, orthognathic jaw surgery, pathology

including jaw cysts and tumors and temporomandibular joint surgery.

Contact information: 516-333-5900

Dean P. Pappas, MD, FACS, FASCRS

Chief, Colon and Rectal Surgery; Senior VP of Mount Sinai Health Network

Colon cancer screening, colorectal cancer, benign colorectal disease, and pelvic floor dysfunction are the clinical focus areas for Dr. Pappas, named Chief of Colon and Rectal Surgery in April 2007. Dr. Pappas completed medical school and residency training at Stony Brook School of Medicine followed by fellowship-training in colon and rectal surgery at Orlando Regional Medical Center, Orlando, Florida. Dr. Pappas is a Fellow of both the American College

of Surgeons and the American Society of Colon and Rectal Surgeons. Dr. Pappas has experience in advanced laparoscopic colon resections, involving minimally-invasive surgical techniques applied for faster recovery, reduced post-operative discomfort, and less scarring. Other areas of interest include management of constipation and incontinence.
