

What's Happening:

Due to construction, there will be major changes on the hospital's Oceanside campus in the coming months that will significantly impact where patients and visitors can park.

A significant part of Parking Lot 1 (physician lot) will be needed for a new power plant. The new, \$90 million plant, known as the Central Utility Plant (CUP), will replace the hospital's current aging power plant, harden the hospital's infrastructure against future storms, make our power use cleaner and more efficient and provide the extra power required for a planned, four-story Southwest Addition (J-Wing).

Beginning November 11, 2019, **Parking Systems**, a professional parking company, will begin management of parking on the hospital's main campus in order to maximize the reduced number of parking spaces available due to the construction.

The parking plan will change over time due to the construction schedule. Here are the changes you should anticipate in the near future:

- **Valet** services will continue to be offered at the front of the hospital at a slightly increased cost of \$8 per car. Parking Systems provides expedited service through **ElimiWait**, a web-based, paperless ticketing service so you can text ahead to retrieve your car. Valet services will now be offered at expanded hours from 6:00am-8:00pm Monday through Friday and 8:00am-6:00pm on weekends. If you leave after this time, your keys will be left at the Information Desk in the main lobby.
- **Self-Park** - If you choose to self-park, **Lots 2 & 5** are for **patients and visitors only**. Parking Systems staff will be available at these lots to assist you. **Expected start date 1/15/20.**
- **ED Entrance - Emergency Department** patients and visitors will have a valet attendant to park their cars at no cost. **Expected start date 12/2/19.**

If you have any questions about this parking plan, please regularly refer to our website at southnassau.org/park.

Thank you for your patience and cooperation.

Parking Advisory

During construction of Central Utility Plant (CUP) and Southwest Addition (J-Wing)

Printed Date: November 2019

Parking Map

Parking on and off Campus

- 
Patients & Visitors ONLY (Lots 2 & 5)
- 
Valet Parking
 Valet services will be offered at the front of the hospital at a cost of \$8 per car.
- 
Attendant Assist Parking
 When all spots are full, parking attendants will help double-park or “stack” cars. Here, you will leave your keys with the attendant and utilize **ElimiWait* to retrieve your car.
**More Info on ElimiWait inside this brochure.*
- 
Employee Parking (Lots 3, 4, 12 & 519)
- 
Shuttle Pick-Up/Drop Off (Lots 12 & 519)
- 
Physicians (Lot 1)
- 
NO Parking
